AMENDMENT REPORT

1.0 Purpose

On 19 February 2019 the Shire of Wyndham-East Kimberley Local Planning Scheme No. 9 (LPS 9) was published in the *Government Gazette* and came into operation. LPS 9, which incorporates the Scheme text and Scheme maps, controls and guides development and growth within the Shire of Wyndham-East Kimberley.

It is common practice to undertake a periodic, relatively minor review of local planning schemes. These reviews are usually undertaken as an 'omnibus amendment' to the scheme and in response to a number of matters which, amongst other things, include changes brought about by ongoing strategy and policy formulation, and/or to effect general improvements for administration purposes.

This amendment proposes a number of changes to LPS 9 to correct minor textual and mapping errors.

2.0 Background

The intent and scope of the changes proposed in the amendment can be broadly grouped into the following categories:

- Correction of minor text errors and omissions that were not identified when LPS 9 was first gazetted;
- Updating the zoning table to review the permissibility of certain land uses;
- Address a number of mapping corrections that have been identified through the process of adopting LPS 9 and other minor modifications to the Scheme maps.

This report has been structured to reflect the categories above and provides the rationale for each amendment.

3.0 Planning Considerations

3.1 Shire of Wyndham-East Kimberley Local Planning Strategy

The Shire's Local Planning Strategy was endorsed by the Western Australian Planning Commission in 2019. The Local Planning Strategy sets out the medium to long term planning directions for the Shire over the next 10-15 years, and provides the rationale for the zones and other provisions of LPS 9. The majority of the changes proposed through this Amendment are minor in nature and do not impact any of the strategic recommendations within the Local Planning Strategy.

4.0 Planning Rationale for Proposed Scheme Amendment Changes

The changes proposed in this Amendment fall into main categories as follows:

- Correction of minor text errors and omissions that were not identified when LPS 9 was first gazetted;
- Updating the zoning table to review the permissibility of certain land uses;
- Address a number of mapping corrections that have been identified through the process of adopting LPS 9 and other minor modifications to the Scheme maps.

This report has been structured to reflect each of these categories and the rationale for each amendment is provided under the headings below.
