Subject: Kununurra Pool Redevelopment

Dear Nick,

Royal Life Saving Society WA (RLSSWA) is pleased to receive the Kununurra Pool and Leisure Center Business Case and Redevelopment Plans. We strongly support this redevelopment.

The Royal Life Saving Society WA is the largest provider of water safety education in our state. Our volunteers, members, trainers, employees and lifesavers are found in almost all communities - including the Shire of Wyndham East Kimberley.

RLSSWA strongly supports safe, efficient and effective aquatic facilities and to meet the needs and expectations of the communities.

The redevelopment plans for the Kununurra pool does provide the space for swimming lessons, swimming and lifesaving carnivals, birthday parties, after-school and holiday swimming, lap swimming, lifesaving training and other activities at the request of the community.

With the current structural issues impacting on the main Kununurra pool, we strongly support the redevelopment plans developed by SWEK to ensure access to an aquatic facility for the Kununurra community.

Please contact me if RLSSWA can provide any further support.

Kind Regards,

Glenn Taylor
