Good Morning Brooke,

Hope your doing well, as always I wanted to thank SWEK for the continued support of the KWSC and the variety of community events we run each year. I have a question regarding the **attached** grant agreement "Ski Show WA" and the ability/process/request to re-purpose the allocation of expenditure.

### Ski Show WA Grant

The initial grant application was initially requested for the purpose of assisting Ski Show WA transport costs to Kununurra to attend the Sunset Markets and provide a performance at the Sunset Markets whilst also proving a coaching clinic during the school holidays. Unfortunately the Ski Show WA team are unable to attend Kununurra this year, we are hoping to have them back in 2026.

### Sunset Market Background:

Each year, the Kununurra Waterski runs a schedule of sunset 'markets' down at the club grounds, typically commencing in June they are Sunday evenings once a month, until October. The sunset markets provide the opportunity for community members to come enjoy the club facilities, utilise food vans/trucks and close out the weekend with and evening sunset (with Bar open). The evenings have fostered an immense level of community spirit and has been a great way to have community members utilise the public space, typically seeing ~ 300 - 500 people attend each market.

### Additional Changes in 2025

Unfortunately our main local sponsor for the 2025 sunset markets has been unable to continue supporting our event. As a result much of the lighting (light towers) and infrastructure (generators) are required to be hired at market rate.

Details	Amount	Comment
Light Towers x2	\$455.40	Light Tower for club grounds
DSL Generator 20KVA	\$184.80	DSL Generator for Food Trucks/Food Vans

Entertainment	\$500 - \$1,500	Depending on Availability of local acts.
<b>Total Cost</b>	<b>\$1.14k - \$2.14k</b>	Additional cost per market.

### 2025 Market Schedule

Our committee is meeting next week to discuss the 2025 schedule of markets, we anticipate the first markets to commence in June and finish in October. Running a total of five (5) markets between June and October.

### Request for Variation

With the change in circumstances outlined above, we were hoping it may be possible to submit a formal request to vary the allocation expenditure to be utilised in running the market evenings?

Details	Amount	Comment
Equipment Hire - Light Towers	\$2,227	Light Towers for Club Grounds to run (5) market evenings.
Equipment Hire - Generator	\$924.00	20 KVA Generators to run (5) market evenings.
Entertainment	\$2,500	Entertainment to run (5) market evenings.
Total Allocation of Grants funds	\$5,000	

Hoping you might be able to review the above, consider the request or point us in the right direction.  
Cheers Jono
