PURPOSE

For the Council to consider endorsing the revised Council Policy *CP/FIN-3200 Strategic Rating* and the revised 2021/22 rate model for inclusion in the 2021/22 Annual Budget.

NATURE OF COUNCIL'S ROLE IN THE MATTER

Leader - plan and provide direction through policy and practices

Regulator - enforce state legislation and local laws

BACKGROUND/ PREVIOUS CONSIDERATIONS BY COUNCIL/ COMMITTEE

Background

As part of the rate setting and annual budget process each year, Local Governments in Western Australia are required to seek Ministerial approval for any proposed differential rate that is more than twice the lowest differential rate imposed. Advertising the rates and seeking Ministerial approval is part of the normal process undertaken each year prior to Council adopting its Annual Budget.

At the 27 April Ordinary Council meeting the revised Council Policy *CP/FIN-3200 Strategic Rating* and the proposed differential rates and minimum payments for the 2021/22 financial year were adopted for advertising incorporating a 1% average increase. Advertising of the proposed rates commenced on 1 May 2021 with a closing date for public submissions on 28 May 2021.

On 26 May 2021 the annual Unimproved Value (UV) valuation rolls were received from Landgate and loaded into the Shire's rates model for 2021/22. The rolls included significant and varying reductions in values for the UV Rural Residential category.

At the 1 June 2021 Special Council Meeting, Council considered public submissions received and endorsed a revised rating model which included an adjusted rate in the dollar and proposed rate concessions for the UV Rural Residential rating category designed to mitigate the impact of the changes in values to ensure that the rates for individual ratepayers in this category received the intended 1% increase in rates for the 2021/22 financial year.

On 4 June 2021 applications were submitted to the Minister for Local Government for the differential rates and minimum payments with the expectation that the approvals would be received prior to Council adopting the 2021/22 Annual Budget at the 29 June 2021 Ordinary Council Meeting.

On 29 June 2021 Ministerial approval was received for all the proposed differential rates and minimum payments with the exception of the differential rate for the UV Rural Residential rating category. This notification was received 19 minutes before the Ordinary Council Meeting was scheduled to start. As the rating model and the annual budget can not be adopted without the required Ministerial approval for all differential rates, the proposal to adopt the 2021/22 Annual Budget was withdrawn from the agenda at the 29 June 2021 Ordinary Council Meeting.

Subsequent to 29 June, amendments to the rating model have been made to ensure that the differential rate for the UV Rural Residential rating category meets the requirements for Ministerial approval. The revised rating model and the implications of the changes made are presented in this report for consideration by Council.

STATUTORY IMPLICATIONS

In accordance with Section 6.33 the *Local Government Act 1995* as detailed below, Ministerial approval is required for the imposition of a differential general rate which is more than twice the lowest differential general rate imposed.

Local Government Act 1995

Part 5

Division 6 – Disclosure of financial interests

5.63. Some interests need not be disclosed

- (1) Sections 5.65, 5.70 and 5.71 do not apply to a relevant person who has any of the following interests in a matter —
- (a) an interest common to a significant number of electors or ratepayers; or
 - (b) an interest in the imposition of any rate, charge or fee by the local government; or
 - (c) an interest relating to a fee, reimbursement of an expense or an allowance to which section 5.98, 5.98A, 5.99, 5.99A, 5.100 or 5.101(2) refers...

Local Government Act 1995

Part 6

Division 6 – Rates and service charges

6.33. Differential general rates

- (1) A local government may impose differential general rates according to any, or a combination, of the following characteristics —
- (a) the purpose for which the land is zoned under a local planning scheme in force under the *Planning and Development Act 2005*;
 - (b) the predominant purpose for which the land is held or used as determined by the local government;
 - (c) whether or not the land is vacant land; or
 - (d) any other characteristic or combination of characteristics prescribed.
- (2) Regulations may —
- (a) specify the characteristics under subsection (1) which a local government is to use; or
 - (b) limit the characteristics under subsection (1) which a local government is permitted to use.
- (3) In imposing a differential general rate a local government is not to, without the approval of the Minister, impose a differential general rate which is more than twice the lowest differential general rate imposed by it.
- (4) If during the financial year, the characteristics of any land which form the basis for the imposition of a differential general rate have changed, the local government is not to, on account of that change, amend the assessment of rates payable on that land in respect of that financial year but this subsection does not apply in any case where section 6.40(1)(a) applies.

Local Government (Financial Management) Regulations 1996

52A. Differential general rates — s. 6.33(1)(d)

6.33 (1)(d) For the purposes of section 6.33(1)(d), the following are prescribed characteristics —

- (a) whether or not the land is situated in a townsite as defined in the Land Administration Act 1997 section 3(1);
- (b) whether or not the land is situated in a particular part of the district of the local government.

Local Government Act 1995

Part 6

Division 6 – Rates and service charges

6.35. Minimum payment

- (1) Subject to this section, a local government may impose on any rateable land in its district a minimum payment which is greater than the general rate which would otherwise be payable on that land.
- (2) A minimum payment is to be a general minimum but, subject to subsection (3), a lesser minimum may be imposed in respect of any portion of the district.
- (3) In applying subsection (2) the local government is to ensure the general minimum is imposed on not less than -
 - (a) 50% of the total number of separately rated properties in the district; or
 - (b) 50% of the number of properties in each category referred to in subsection (6), on which a minimum payment is imposed.
- (4) A minimum payment is not to be imposed on more than the prescribed percentage of
 - (a) the number of separately rated properties in the district; or
 - (b) the number of properties in each category referred to in subsection (6), unless the general minimum does not exceed the prescribed amount.
- (5) If a local government imposes a differential general rate on any land on the basis that the land is vacant land it may, with the approval of the Minister, impose a minimum payment in a manner that does not comply with subsections (2), (3) and (4) for that land.
- (6) For the purposes of this section a minimum payment is to be applied separately, in accordance with the principles set forth in subsections (2), (3) and (4) in respect of each of the following categories -
 - (a) to land rated on gross rental value;
 - (b) to land rated on unimproved value; and
 - (c) to each differential rating category where a differential general rate is imposed.

6.36. Local government to give notice of certain rates

- (1) Before imposing any differential general rates or a minimum payment applying to a differential rate category under section 6.35(6)(c) a local government is to give local public notice of its intention to do so.

- (2) A local government is required to ensure that a notice referred to in subsection (1) is published in sufficient time to allow compliance with the requirements specified in this section and section 6.2(1).
- (3) A notice referred to in subsection (1)
- (a) may be published within the period of 2 months preceding the commencement of the financial year to which the proposed rates are to apply on the basis of the local government's estimate of the budget deficiency;
 - (b) is to contain -
 - (i) details of each rate or minimum payment the local government intends to impose;
 - (ii) an invitation for submissions to be made by an elector or a ratepayer in respect of the proposed rate or minimum payment and any related matters within 21 days (or such longer period as is specified in the notice) of the notice; and
 - (iii) any further information in relation to the matters specified in subparagraphs (i) and (ii) which may be prescribed; and
 - (c) is to advise electors and ratepayers of the time and place where a document describing the objects of, and reasons for, each proposed rate and minimum payment may be inspected.
- (4) The local government is required to consider any submissions received before imposing the proposed rate or minimum payment with or without modification.
- (5) Where a local government -
- (a) in an emergency, proposes to impose a supplementary general rate or specified area rate under section 6.32(3)(a); or
 - (b) proposes to modify the proposed rates or minimum payments after considering any submissions under subsection (4), it is not required to give local public notice of that proposed supplementary general rate, specified area rate, modified rate or minimum payment.

6.47. Concessions

Subject to the Rates and Charges (Rebates and Deferrals) Act 1992, a local government may at the time of imposing a rate or service charge or at a later date resolve to waive* a rate or service charge or resolve to grant other concessions in relation to a rate or service charge.

* Absolute majority required.

POLICY IMPLICATIONS

Council Policy CP/FIN-3200 Strategic Rating has been revised and is attached to this report at Attachment 1.

The proposed differential general rates and minimum payments in the rate model are based on the Council's revised Policy CP/FIN-3200 Strategic Rating that aligns the rating model closely to the LPS9 in terms of land use.

FINANCIAL IMPLICATIONS

The differential general rates, minimum payments, and proposed concessions as per the revised rating model outlined below and in Attachment 2 are expected to yield net total rate revenue of \$10,567,190, an increase of \$708 from the previous rate model presented.

STRATEGIC IMPLICATIONS

Strategic Community Plan 2017-2027

Focus Area 4: PERFORMANCE - Civic Leadership.

Goal 4.4: Sustainably maintain the Shire's financial viability.

Strategy 4.4.3: Adequately plan for and fund asset maintenance and renewal to deliver planned services.

Strategy 4.4.4: Apply best practice financial management to ensure long term sustainability.

RISK IMPLICATIONS

Risk: Failure to adequately resource and manage funding requirements which meet the needs of the Shire's service delivery requirements and strategic objectives.

Control: Implementation of LTFP and Annual Budget.

Policies updated in accordance with schedule and operational requirements.

COMMUNITY ENGAGEMENT

Local public notice took place from 1 May 2021 to 28 May 2021 in accordance with legislative requirements and the Shire's Community Engagement Plan. Public submissions were considered at the 1 June 2021 Special Council Meeting.

Ratepayers in the UV Rural Residential rating category affected by the changes to the valuations and the differential rate will be contacted by the Shire to advise them of the Minister's decision, the required changes to the proposed rating model, and the impact of the changes on their individual rates.

COMMENTS

Annual UV revaluations

All properties valued on an Unimproved Valuation basis are revalued annually by the Valuer General's Office. These revaluations are conducted around August each year with the new valuations taking effect from 1 July of the following year. Council usually adopts the rate in the dollar for advertising in March or April each year prior to the new valuation roll being received. Normally there are no large variations in valuations on an annual basis and when the valuation roll is received in May the new valuations are incorporated into the final rate model for adoption by Council with the annual budget in June. Any changes to the rate in the

dollar required to ensure the budgeted yield from each rating category is maintained are generally minor and are implemented following the public submission period.

UV Rural Residential Properties

There are currently 200 properties within the Shire's UV Rural Residential rating category that are zoned Rural Residential or Rural Small Holding. The 2021 UV Valuation Roll includes significant valuation changes for properties in this rating category with large variations in valuation across the category due to the sale of a large number of properties in the Valentine Falls Estate in 2020. Valuations in this rating category have decreased by an average of approximately 35% with decreases for individual properties varying from 0 to 75%. This meant that the usual method of adjusting the rate in the dollar to achieve the desired total rate yield from this rating category would result in large variations in individual rate assessments with some ratepayers receiving large increases in their rates while others received significant decreases.

Officers investigated options to determine the best way to address the variations in valuation changes across the UV Rural Residential rating category including the creation of a separate differential rating category for the Valentine Falls Estate. Advice was received however, that this option is not possible as the properties concerned do not meet the required characteristics that allow the imposition of a separate differential rating category under Section 6.33 of the *Local Government Act 1995*.

Following further investigations and advice, it was determined that the most equitable option to achieve the desired outcome of a 1% overall average rate increase was through the use of rate concessions. Officers considered that this option was available as the power to grant concessions is a discretionary power of Council under s6.47 of the *Local Government Act 1995* and has previously been used in dealing with the phasing in of increases in values for the UV Pastoral rating category.

The proposed model allowed the Shire to keep total rates payable for individual ratepayers in the UV Rural Residential rating category at a level that incorporated the desired 1% increase. This was achieved by applying a rate in the dollar that resulted in the rates for the property with the greatest decrease in valuation being equal to their 2020/21 rates plus 1% and applying concessions to all other UV Rural Residential properties so that their rates are equal to their 2020/21 rates plus 1%.

Officers considered that the use of concessions was appropriate in this instance as the variations in valuations within the UV Rural Residential rating category are due to unusual market conditions caused by the sale of a large number of properties in the Valentine Falls Estate. It is considered likely that there will be a correction in the market and that future valuations will be more in line with the true market value of rural residential properties and that the current variations will even out over time. The use of concessions would have allowed the Shire to mitigate the impact of these short term fluctuations to ensure the most fair and equitable outcome for individual ratepayers as well as for all ratepayers across the Shire.

The proposed rating model and concessions were endorsed by Council at the 1 June 2021 Special Council Meeting subject to receiving Ministerial approval as required. Applications for Ministerial approval of the differential rates and minimum payments were submitted to the Department of Local Government, Sport and Cultural Industries (the Department) on 4 June 2021.

On 29 June 2021 Ministerial approval was received for all the proposed differential rates and minimum payments with the exception of the differential rate for the UV Rural Residential rating category (refer Attachment 3). The reason given by the Department for not approving the UV Rural Residential differential rate is that the application of concessions in the manner proposed by the Shire could be seen to be bypassing the valuation of land process and effectively imposing a different rate in the dollar to that approved by the Department. Ostensibly the Department has advised that whilst they recognise that there are anomalies in the Valuer General's valuation process relating to the affected properties, it is not within their power to address this.

Officers have liaised with the Department to determine what options are available that meet the Ministerial approval requirements. Based on the advice received it has been determined that the only option available that will not result in a significant reduction in rate revenue is to adjust the UV Rural Residential rate in the dollar so that the desired total rate yield for this rating category is achieved without the application of concessions. It is therefore the Officer's recommendation that the revised Council Policy CP/FIN-3200 Strategic Rating and the Revised Rating Model 2021/22 be endorsed to allow Ministerial approval to be sought prior to the adoption of the 2021/22 Annual Budget.
